

BOSIET - Basic Offshore Safety Induction & Emergency Training with CA-EBS (Standard Code: 5750)

Beschreibung:

This OPITO approved 3 day BOSIET with Compressed Air Emergency Breathing Systems (CA-EBS) will introduce delegates to the specific safety issues and regimes relevant to Offshore installations.

This course will also equip delegate with the basic emergency response knowledge and skills for travelling to and from Offshore installations by helicopter. This course is a mix of theoretical and practical sessions, during which delegates will be required to demonstrate their level of knowledge and understanding of the training programme content.

The OPITO BOSIET is valid for a 4 year period, prior to expiry delegates must complete an OPITO Combined FOET course to remain certified.

Hinweis: Die Lehrinhalte unserer Kurse sind grundsätzlich in englischer Sprache verfasst. Auch die Unterrichtssprache ist in der Regel Englisch. Setzt sich die Teilnehmergruppe jedoch ausschließlich aus deutschsprachigen Personen zusammen, findet der Unterricht auf Deutsch statt. Die Lehrinhalte bleiben dabei weiterhin in englischer Sprache.

Note: The course content is generally written in English. The language of instruction is also usually English. However, if the group of participants consists exclusively of German speakers, the lessons will be held in German. The course content will remain in English.

Ziel:

By the end of this training programme, delegates will:
Have a knowledge of the offshore industry including:
Offshore hazards & control measures, offshore safety management, how offshore safety is regulated and living & working in the offshore environment.

Understand the processes involved in helicopter travel & be competent in their ability to escape from a ditched or ditching helicopter in an emergency situation.

Have knowledge of what to do in an evacuation situation: How to respond to alarms, the systems used to achieve successful evacuation and the actions to take in the event of a water entry situation.

Understand what is meant by emergency First Aid and how to assist in a First Aid situation prior to arrival of the medic.

Be competent in the use of portable fire extinguishers for basic firefighting and be confident in self-rescue techniques used to successfully escape from smoke filled environments.

Voraussetzungen:

Items to bring:

National Photographic Identification/Passport/Driver's License, Medical Certificate, Swim wear and towel.

For pool activities it is advisable to bring a change of clothing i.e. T-shirts, tracksuits, etc.

Delegates will be required to produce one of the three certificates outlined below:

Produce a valid, unexpired offshore medical certificate confirming the delegate's fitness for offshore work.

OR

A valid, unexpired, medical certificate of fitness to work at sea.

OR

A self declaration of fitness to undertake shallow water CA-EBS training.

AND

On the date on which the delegate is to undertake shallow water CA-EBS training, and prior to entering the water in which the training takes place, the delegate gives to the OPITO-approved Centre a statement, that to the best of the delegate's knowledge and belief, the delegate has no (current or past) medical condition which makes the delegate unfit to participate in the training.
